Railings

Sitting Board: Thornewill, Paul, Patten, Oliver

Chair: Welch Alternate: N/A

Thornewill: Feels the cornice & railing of Option 'B' are way to formal. Would like to see the possibility of a continuous low decorative railing. As is states not in favor of either option.

Paul: Option 'B' feels a bit heavy, and Option 'A' feels a bit peculiar but is not adverse to the continuous railing if it was natural to weather. Feels there is a precedent for flat roof railings. Prefers a homogenous railing design & height. Could support approval for Option 'A'.

Patten: Asks several questions about the design. Likes shorter decorative railing but has a 'hard time' with the deck all together.

Oliver: Agrees with Paul regarding Option A. Feels the deck area is massive and would like to see it taken back a 'few' sections.

Welch: The railing could come over two sections in full height to mid roof. Suggests presenting a more utilitarian option with reduced size and visibility from Stone Alley. Paul & Oliver weigh in with comments of support for the Chair's insights.

MIRKA: Application is for the pool, partial hardscape/new driveway – project was in front of board a few weeks ago when structures were approved. Revised driveway access, small retaining walls for lower-level walkout using natural stone and pavers, curved into the landscape. Controlled the height of the walls under 4' and small pool in front of the building w/coping. All at grade – no grade changes. Hardscape material extends the pea stone driveway. Far away from any public view. Nothing will be visible from anywhere. Glass will be a railing on top of stone – the idea is to keep the natural feel of the house. Creating something seamless – not visible from public view – all vegetation is very low – wanted to keep low preexisting character of this house. Limited on the site for disturbance – this area [pool location] is already cleared. As of now, the rear is not able to have additional clearing – only the driveway area can be cleared – and still needs to go through that approval process. Access to the house is from the ocean side.

[Public/Abutter Comment] THOMAS BARADA 31 W. Miacomet: The first house got approved – I had brought up a lot of concerns at the time. The basement pit in the back shows a recessed pit with 2 retaining walls and safety glass – top of wall is 18' and bottom of pit is 6', second retaining wall is a 6' drop – yet no retaining wall on lower wall there – there's a safety issue from insurance point of view. Pool in front of the house – thought it was supposed to be in back of house – out of sight. No notation to where the pool or air conditioning equipment will be. Two retaining walls – glass – I guess they're doing a patio over the tunnel – a glass wall there – which doesn't seem like building Nantucket – usually wood. Doesn't seem to fit in with what we have out there. Safety glass is not the style out there. Safety issue for the pit; that pit is going to shine so much light up into the night sky – facing out to the moors w/the wildlife and such. Commented Mirka said you cannot see glass from the street – the sun will reflect the glass and you will see it from the street.

RAY: Uplighting is not something the board regulates but can comment on it with respect to character and setting. Hardscape elements not on an application are not approved. The shed issue may not be part of the particular application. Safety is something we're all concerned about – but it is not part of an architectural board purview. We'll pick up on the pool and other observations of the board now. Clarifies Mirka is at meeting now for the walkout. Looking for elevations that distinguish this element in context (walkout). Need to consider glare, color, translucency, etc. of the glass proposed. Would like to see sections and elevation representing the four sides with the hardscape in place, with the understanding that it will look different when planted. His understanding is there are conditions in place and cannot clear anything more than what has been cleared without separate approval. Comments about location need to be taken into consideration, and we'll see sections, elevations, staking for review and glass samples: how they may affect those comments. Couple members are concerned about the location.

VAL: Absolutely no previous indication of any walkout. Cannot envision what this is going to look like. Walls are stone w/glass on top – concerned about that. Questioned if glass doesn't reflect if someone is

looking out towards the house. Would like to see what the façade looks like w/the tiers and cross section.

ABBY: Would like to see a drawing of the house to refresh her mind of what it looks like. Wants to see the whole site plan of what it looks like. Worried about the siting of the pool, vegetation is low – the pool is sort of open. The pool is set out there alone – if you were sensitive to the landscape – you would tuck it away. Need to be more sensitive to the environment. If there's going to be screening of the pool – you'd be changing the entire landscape.

DIANE: This land is questionable to what we are dealing with. Thinks the brush/vegetation is very low and less than it used to be. Thinks the pool is going to be visible – and needs to be put together a little bit more. Don't think glass fences fit in – hasn't ever seen anything like that in the surrounding neighborhood. Would like to see this fit in more naturally with where it is and conform with what's in the neighborhood. Finds it difficult to see that right now.

CONNIE: Has similar concerns – would like to see the proposed retaining wall and the glass. Seems the pool is in the front yard and not the backyard. Asked if pool could be put on the other side – get rid of second bluestone patio.

ABBY: Motion to hold for viewing and revisions. Board requested comments that have been made about location, in respect to revisions, sectional drawings of the sunken area primarily, elevations of the house that reflect the hardscape, area of the pool and sunken location, staking of the pool corners (by Tuesday) and sight of view, separate but related, samples of the glass or different panels of glass so we can review it. Glass panels are separate but related – would be beneficial to see as to not hold further for that element.

1. Staking view (hot red flags on it) – Mirka to let them know when it is ready
2. Glass panels
3. Comments being incorporated in revisions.

Unanimous.

HB: OHD Brant Point area. Not sure about the chimney details. North & south elevations are the most important. South is not visible from the harbor due to the main house blocking the view. Triple ganged windows on the north elevation should be 2 or 2 separate windows. Appreciates the simplicity.

MR: exterior chimney does not seem to fit on the exterior, would prefer a different location. Agrees about the second-floor windows.

AC: agrees about the second-floor windows, if they were separated, she would be fine with it.

VO: does not like the chimney details and agrees about the second-floor windows.

SW: chimney should be thinner. Downsize windows or separate.

Exhibit A motion to approve second floor north elevation windows change to 2 windows separated and width of chimney brought in to make less square.

Nantucket, Massachusetts 02554
Telephone: 508.325.7587 Fax: 508.228.7298

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 2 Dukes Road

Tax Map Number: 41 Parcel Number: 187

Owner of Record: Dukes Road Trust; Steven Cohen Trustee

Description of Proposal: New Guest House and Garage/Studio

Anticipated HDC Submission Date: April 22, 2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 2 Dukes Road

Tax Map Number: 41 Parcel Number: 187

Owner of Record: Dukes Road Trust; Steven Cohen Trustee

Description of Proposal: New Guest House and Garage/Studio

Anticipated HDC Submission Date: April 22, 2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

18. All sedimentation barriers shall be maintained in good repair until all disturbed areas have been fully stabilized with vegetation or other means. At no time shall sediments be deposited in a wetland or water body. During construction, the applicant or his/her designee shall inspect the erosion controls on a daily basis and shall remove accumulated sediments as needed. The applicant shall immediately control any erosion problems that occur at the site and shall also immediately notify the Conservation Commission, which reserves the right to require additional erosion and/or damage prevention controls it may deem necessary. Sedimentation barriers shall serve as the limit of work unless another limit of work line has been approved by this Order.

NOTICE OF STORMWATER CONTROL AND MAINTENANCE REQUIREMENTS

19. **The work associated with this Order (the "Project") is** (1) ☐ **is not** (2) ☒ **subject to the Massachusetts Stormwater Standards. If the work is subject to the Stormwater Standards, then the project is subject to the following conditions:**

a) All work, including site preparation, land disturbance, construction and redevelopment, shall be implemented in accordance with the construction period pollution prevention and erosion and sedimentation control plan and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Construction General Permit as required by Stormwater Condition 8. Construction period erosion, sedimentation and pollution control measures and best management practices (BMPs) shall remain in place until the site is fully stabilized.

b) No stormwater runoff may be discharged to the post-construction stormwater BMPs unless and until a Registered Professional Engineer provides a Certification that:
i. all construction period BMPs have been removed or will be removed by a date certain specified in the Certification. For any construction period BMPs intended to be converted to post construction operation for stormwater attenuation, recharge, and/or treatment, the conversion is allowed by the MassDEP Stormwater Handbook BMP specifications and that the BMP has been properly cleaned or prepared for post construction operation, including removal of all construction period sediment trapped in inlet and outlet control structures;
ii. as-built final construction BMP plans are included, signed and stamped by a Registered Professional Engineer, certifying the site is fully stabilized;
iii. any illicit discharges to the stormwater management system have been removed, as per the requirements of Stormwater Standard 10;
iv. all post-construction stormwater BMPs are installed in accordance with the plans (including all planting plans) approved by the issuing authority, and have been inspected to ensure that they are not damaged and that they are in proper working condition;
v. any vegetation associated with post-construction BMPs is suitably established to withstand erosion.

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

c) The landowner is responsible for BMP maintenance until the issuing authority is notified that another party has legally assumed responsibility for BMP maintenance. Prior to requesting a Certificate of Compliance, or Partial Certificate of Compliance, the responsible party (*defined in General Condition 18(e)*) shall execute and submit to the issuing authority an Operation and Maintenance Compliance Statement ("O&M Statement) for the Stormwater BMPs identifying the party responsible for implementing the stormwater BMP Operation and Maintenance Plan ("O&M Plan") and certifying the following: *i.*) the O&M Plan is complete and will be implemented upon receipt of the Certificate of Compliance, and *ii.*) the future responsible parties shall be notified in writing of their ongoing legal responsibility to operate and maintain the stormwater management BMPs and implement the Stormwater Pollution Prevention Plan.

d) Post-construction pollution prevention and source control shall be implemented in accordance with the long-term pollution prevention plan section of the approved Stormwater Report and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Multi-Sector General Permit.

e) Unless and until another party accepts responsibility, the landowner, or owner of any drainage easement, assumes responsibility for maintaining each BMP. To overcome this presumption, the landowner of the property must submit to the issuing authority a legally binding agreement of record, acceptable to the issuing authority, evidencing that another entity has accepted responsibility for maintaining the BMP, and that the proposed responsible party shall be treated as a permittee for purposes of implementing the requirements of Conditions 18(f) through 18(k) with respect to that BMP. Any failure of the proposed responsible party to implement the requirements of Conditions 18(f) through 18(k) with respect to that BMP shall be a violation of the Order of Conditions or Certificate of Compliance. In the case of stormwater BMPs that are serving more than one lot, the legally binding agreement shall also identify the lots that will be serviced by the stormwater BMPs. A plan and easement deed that grants the responsible party access to perform the required operation and maintenance must be submitted along with the legally binding agreement.

f) The responsible party shall operate and maintain all stormwater BMPs in accordance with the design plans, the O&M Plan, and the requirements of the Massachusetts Stormwater Handbook.

Maintain an operation and maintenance log for the last three (3) consecutive calendar years of inspections, repairs, maintenance and/or replacement of the stormwater management system or any part thereof, and disposal (for disposal the log shall indicate the type of material and the disposal location);
2. Make the maintenance log available to MassDEP and the Conservation *Commission ("Commission") upon request; and*
3. Allow members and agents of the MassDEP and the Commission to enter and inspect the site to evaluate and ensure that the responsible party is in compliance with the requirements for each BMP established in the O&M Plan approved by the issuing authority.

h) All sediment or other contaminants removed from stormwater BMPs shall be disposed of in accordance with all applicable federal, state, and local laws and regulations.

i) Illicit discharges to the stormwater management system as defined in 310 CMR 10.04 are prohibited.

D. Findings Under Municipal Wetlands Bylaw or Ordinance

1. Is a municipal wetlands bylaw or ordinance applicable? ☒ Yes ☐ No
2. The Nantucket Conservation Commission hereby finds (check one that applies):
   a. ☐ that the proposed work cannot be conditioned to meet the standards set forth in a municipal ordinance or bylaw, specifically:

      1. Municipal Ordinance or Bylaw _____ 2. Citation _____

      Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides measures which are adequate to meet these standards, and a final Order of Conditions is issued.

   b. ☐ that the following additional conditions are necessary to comply with a municipal ordinance or bylaw:

      1. Municipal Ordinance or Bylaw _____ 2. Citation _____

3. The Commission orders that all work shall be performed in accordance with the following conditions and with the Notice of Intent referenced above. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, the conditions shall control.
   The special conditions relating to municipal ordinance or bylaw are as follows (if you need more space for additional conditions, attach a text document):
   Please view additional findings and conditions page(s)

B1. Additional Conditions

The Town of Nantucket Conservation Commission has found it necessary to include these additional conditions as a standard part of every Order. If the condition applies, then the corresponding box will be checked:

☒ 1. Pursuant to General Condition Number 8, this Order of Conditions must be registered with the Registry of Deeds for Nantucket, and proof of recording shall be submitted to *the Commission prior to the commencement of any work approved in this Order.*

☒ 2. No work approved under this Order shall take place until all administrative appeal periods from the Order have elapsed, or, if an appeal has been filed, until all proceedings have been completed.

☒ 3. The landowner, applicant, and/or the contractor will notify the Commission in writing five days prior to the start of work. The letter shall state the name, address, and telephone number of the project supervisor who will be responsible for insuring onsite compliance with this Order. (All erosion/sedimentation control devices shall be installed BEFORE the start of work.)

☒ 4. Prior to any activity at the site, a snow fence, siltation fence or a line of straw bales shall be staked as shown on the plan of record. After the fence or straw bales are installed, notice *shall be given* to the Nantucket Conservation Commission. **No work shall begin on the site for 72 hours after said notice is given; so as to allow Commission members time to inspect all siltation devices.** The snow fence, siltation fence, or straw bale line erected to prevent siltation, erosion, filling of the wetland, and trap windblown debris during construction, will also serve as a limit of the activity for work crews. It shall remain in good repair during all phases of construction, and it shall not be removed *until all soils are stabilized and* revegetated or until permission to remove it is given by the Commission.

☒ 5. An as-built plan, signed and stamped by a registered professional engineer or land surveyor in the Commonwealth of Massachusetts and having the same scale as the final approved plans, shall be submitted to the Commission at the same time as a written request for a Certificate of Compliance, and shall specify how, if at all, the completed plan differs from the final approved plan. The as-built plan shall include, but not be limited to, the following: any/culvert inverts for inflow and outfalls; pipe slope, size, and composition; location of any other drainage structures *and their composition; limits of fill or alteration; location of all* structures and pavement within 100 feet of the wetland; the edge of the wetland; the grade contours within 100 feet of the wetland.

☒ 6. Members, employees, and agents of the Commission shall have the right to enter and inspect the premises to evaluate compliance with the conditions and performance standards stated in this Order, the Massachusetts Wetlands Protection Act, and pertinent Massachusetts regulations (310CMR10:00 through 10:99). The Commission may require the submittal of any data deemed necessary by the Commission for that evaluation.

☒ 7. The applicant, owners, successors, or assignees shall be responsible for maintaining any on-site drainage structures and outfalls, assuring the lasting integrity of vegetative cover on the site, and monitoring of site activities so as to prevent erosion, siltation, sedimentation, chemical contamination, or other detrimental impact to any on-site or off-site resource area. It shall be the responsibility of the property owner of record to ensure compliance with the maintenance conditions required by this Order.

☒ 9. A complete copy of this permit, including its drawings, Special Conditions, and any Amendments shall be available at the work site whenever work is being performed. The permittee shall provide a copy of this permit to all contractors, subcontractors, and other personnel performing work relating to this project in order to assure full knowledge and compliance with the permit's terms and conditions.

☒ 10. Natural vegetation between the wetland edge and upland edge of the Undisturbed Buffer shall be left intact. Within 48 hours of project completion, weather permitting, all disturbed areas shall be replanted as previously approved by the Commission. There shall be at least a 25-foot undisturbed buffer on the upland side of the wetland boundary, unless otherwise specified by this Order. This shall be an ongoing Condition that shall survive the expiration of this permit and shall be so noted on the Certificate of Compliance.

F. Appeals

The applicant, the owner, any person aggrieved by this Order, any owner of land abutting the land subject to this Order, or any ten residents of the city or town in which such land is located, are hereby notified of their right to request the appropriate MassDEP Regional Office to issue a Superseding Order of Conditions. The request must be made by certified mail or hand delivery to the Department, with the appropriate filing fee and a completed Request of Departmental Action Fee Transmittal Form, as provided in 310 CMR 10.03(7) within ten business days from the date of issuance of this Order. A copy of the request shall at the same time be sent by certified mail or hand delivery to the Conservation Commission and to the applicant, if he/she is not the appellant.

Any appellants seeking to appeal the Department's Superseding Order associated with this appeal will be required to demonstrate prior participation in the review of this project. Previous participation in the permit proceeding means the submission of written information to the Conservation Commission prior to the close of the public hearing, requesting a Superseding Order, or providing written information to the Department prior to issuance of a Superseding Order.

The request shall state clearly and concisely the objections to the Order which is being appealed and how the Order does not contribute to the protection of the interests identified in the Massachusetts Wetlands Protection Act (M.G.L. c. 131, § 40), and is inconsistent with the wetlands regulations (310 CMR 10.00). To the extent that the Order is based on a municipal ordinance or bylaw, and not on the Massachusetts Wetlands Protection Act or regulations, the Department has no appellate jurisdiction.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 7 North Gully Road

Tax Map Number: 73.1.3 Parcel Number: 123

Owner of Record: Three North Gully Road LLC

Description of Proposal: New Dwelling

Anticipated HDC Submission Date: April 22, 2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

"TURTLE GLASS"

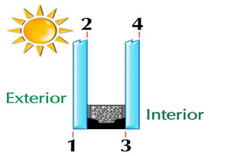

SOUTH FLORIDA HAS IMPLEMENTED A MANDATORY GLASS SPECIFICATION REQUIRING THE USE OF A GREY TINT FILM ON WINDOWS, REDUCING VISIBLE LIGHT TRANSMITTANCE TO 45% OR LESS (A 25% REDUCTION FROM TYPICAL WINDOWS) AS WELL AS REDUCING GLARE. THIS MEASURE AIMS TO FACILITATE THE NATURAL JOURNEY OF SEA TURTLE HATCHLINGS TO THE OCEAN BY RELYING ON THE LIGHT OF THE MOON. ARTIFICIAL LIGHTS OFTEN CONFUSE HATCHLINGS, LEADING THEM TO VENTURE INTO BUILT ENVIRONMENTS WHERE THEY ARE AT RISK OF PERISHING.

Subject: RE: FW: Lord Family LLC, 15 Coffin Street
To: Tim Lord <tlord@dreamyard.com>

Tim, Dierdre,

I took a pretty good look at the title to the property yesterday afternoon and admittedly spent more time than I thought I would on it and I believe the property does have rights on South Road. Despite the fact that the Lord Family LLC's certificate of title is silent as to rights in the way, I believe the boundaries of the lot and Massachusetts Law clearly gives the owner of your lot rights in the way. If need be I can send you all the documents I found but the short answer is that because the property is bounded "by" South road the owner of the property has the right to use South Road (and likely owns to the midline of the road) subject to everyone's right to use it who also has rights. The common law rule in Massachusetts has always been that if you own "by" a way you own to the midline of that way and have rights to use it for all roadway purposes.

To explain a bit further, basically the property was registered with the Massachusetts Land Court in 1954 and the petition by the owner at the time sought to register the land on the Northeasterly Boundary "by" South Road. Then the Land Court approved the petition and the original approved Land Court Plan has the word "By" printed on it on the South Road side. This is important because if it said "by the line of South Road" then you would likely not have rights in it. After this registration, all deeds for this property all certificates of title recite metes and bound descriptions for the property as "by South Road 267.54 feet" or two lots "by South Road 80.59 feet and 170.05 feet respectively. This includes the deed from Robert Young to what I assume are your parents (Chales and Gay). Then at some point the metes and bounds description is eliminated and the lots are just recited in deeds as conveying Lot Number 4 and Lot Number 8. Despite the deeds dropping the metes and bounds description the rights in the way are not changed so in my opinion you still have rights to South Road. For that reason, I do not think the other owners can prevent you from using the roadway and constructing a driveway off of it. They are within their rights to ask you to pay for maintenance but they cannot force you to. Obviously to keep the peace in the neighborhood and have a nice roadway I think it would behoove you to contribute to the road maintenance.

I should also say that my opinion is not definitive. If there is something in the Registry of Deeds records that specifically excludes your property from having rights in South Road, then that could change things but I haven't found anything to suggest that. Let me know if you have any questions.
Best regards,
Rick

42.3.3 / 155

Addition

Sitting Board: Oliver, Coombs, Camp

Oliver: Likes Rowland's suggestion of simplifying; Flush dormer is a no go; Too modern; Changing the style of windows also is kind of competing with original house; porch should be just over the door and would take away suburb look; appreciate the mitigation of the masses; north seems okay aside from the three doors; the railing on the back is too ornate.

Coombs: Agrees with Val; the dormer with the two windows is too big; that whole thing should come in, make it less wide; It's not much narrower than the house; like it's simplicity, but would like it narrower

Camp: The right side is overwhelming; doesn't mind what we do in the back; why not have just one window on second floor; simplify

Addition

Sitting Board: Oliver, Coombs, Camp

Oliver: Likes Rowland's suggestion of simplifying; Flush dormer is a no go; Too modern; Changing the style of windows also is kind of competing with original house; porch should be just over the door and would take away suburb look; appreciate the mitigation of the masses; north seems okay aside from the three doors; the railing on the back is too ornate.

Coombs: Agrees with Val; the dormer with the two windows is too big; that whole thing should come in, make it less wide; It's not much narrower than the house; like it's simplicity, but would like it narrower

Camp: The right side is overwhelming; doesn't mind what we do in the back; why not have just one window on second floor; simplify

New Dwelling

Sitting Board: Oliver, Paul, Camp, Coombs

Chair: Welch Alternate: None

Paul: Would like to see 1/8" scaled elevations across the site. Feels the main massing has too much going on with dormers and different heights

Oliver: Biggest concern is the view from Hummock Pond Rd; would like to see front of building to face Hummock Pond Rd. Height should be reduced

Camp: Suggests cutting down fenestration on side that faces Hummock Pond Rd. Concerned with height

Coombs: Thinks it is too large and too busy

Welch: Not concerned with which side faces street considering the distance from Hummock Pond Rd.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 92 Washington Street

Tax Map Number: 4223 Parcel Number: 22

Owner of Record: Thomas Holt Ripley and Alexandra Petrillo Ripley

Description of Proposal:

Demolish existing single family dwelling and replace with new single family dwelling to be in code compliance with FEMA and Massachusetts State Building Code flood requirements.

Anticipated HDC Submission Date: 4/08/2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 92 Washington Street

Tax Map Number: 4223 Parcel Number: 22

Owner of Record: Thomas Holt Ripley and Alexandra Petrillo Ripley

Description of Proposal:

Demolish existing garage with second floor living space. Construct new garage with second floor living space.

Anticipated HDC Submission Date: 4/08/2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 92 Washington Street

Tax Map Number: 4223 Parcel Number: 22

Owner of Record: Thomas Holt Ripley and Alexandra Petrillo Ripley

Description of Proposal:

Demolish existing shed and construct new shed on lot's street side.

Anticipated HDC Submission Date: 4/08/2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

The Massachusetts Historical Commission (MHC) has converted this paper record to digital format as part of ongoing projects to scan records of the Inventory of Historic Assets of the Commonwealth and National Register of Historic Places nominations for Massachusetts. Efforts are ongoing and not all inventory or National Register records related to this resource may be available in digital format at this time.

The MACRIS database and scanned files are highly dynamic; new information is added daily and both database records and related scanned files may be updated as new information is incorporated into MHC files. Users should note that there may be a considerable lag time between the receipt of new or updated records by MHC and the appearance of related information in MACRIS. Users should also note that not all source materials for the MACRIS database are made available as scanned images. Users may consult the records, files and maps available in MHC's public research area at its offices at the State Archives Building, 220 Morrissey Boulevard, Boston, open M-F, 9-5.

Users of this digital material acknowledge that they have read and understood the MACRIS Information and Disclaimer (http://mhc-macris.net/macrisdisclaimer.htm)

Data available via the MACRIS web interface, and associated scanned files are for information purposes only. IF YOU ARE REPRESENTING A DEVELOPER AND/OR A PROPOSED PROJECT THAT WILL REQUIRE A PERMIT, LICENSE OR FUNDING FROM ANY STATE OR FEDERAL AGENCY YOU MUST SUBMIT A PROJECT NOTIFICATION FORM TO MHC FOR MHC'S REVIEW AND COMMENT. You can obtain a copy of a PNF through the MHC web site (www.sec.state.ma.us/mhc) under the subject heading "MHC Forms."

The Massachusetts Historical Commission (MHC) has converted this paper record to digital format as part of ongoing projects to scan records of the Inventory of Historic Assets of the Commonwealth and National Register of Historic Places nominations for Massachusetts. Efforts are ongoing and not all inventory or National Register records related to this resource may be available in digital format at this time.

The MACRIS database and scanned files are highly dynamic; new information is added daily and both database records and related scanned files may be updated as new information is incorporated into MHC files. Users should note that there may be a considerable lag time between the receipt of new or updated records by MHC and the appearance of related information in MACRIS. Users should also note that not all source materials for the MACRIS database are made available as scanned images. Users may consult the records, files and maps available in MHC's public research area at its offices at the State Archives Building, 220 Morrissey Boulevard, Boston, open M-F, 9-5.

Users of this digital material acknowledge that they have read and understood the MACRIS Information and Disclaimer (http://mhc-macris.net/macrisdisclaimer.htm)

Hi Steve,

Thanks for your email and sending along the digital set of existing conditions. If we already have a paper copy with the original set filed, no need to provide another copy.

The Exhibit A process is the same for the "staff approval" process. Essentially, the board is wanting to make sure that plans submitted for "staff approval" are in fact what they voted on – as there have been issues in the past or inconsistencies.

In some instances, the Exhibit A is done by Joe Paul digitally (super helpful), in which he emails a copy to staff and in turn, I can email to the agent. Unfortunately, with his absence, that means they were done on paper.

It would be best to have Sue come in the office and pull the file from the admin staff and get a copy of the Exhibit A. Then your revisions for the "staff approval" is based on that and they are resubmitted together. The "staff approval" checklist still says 4 copies required for stamping, but the board did vote that only 3 are necessary. (Personally, it doesn't bother me if you need 4 copies stamped.)

As I mentioned last night, I remember visiting my great aunt and uncle who lived there, Jim & Anna Worth. My father said my great grandfather, Richard B. Corkish Sr did renovations on the gambrel main house, but also, he built the garage. He said that the garage was knocked off its foundation by a tornado (yes a tornado!) They had to use his boom truck to put the garage back on its foundation!! I'll have to look for any news articles on the tornado in the archives of Inquirer & Mirror. I'm sure there is one!

I was able to find the attached c.1933 NHA aerial photo of Lily Pond. If you zoom in you can see the Gambrell and its garage!

See below.

In time, we will be updating all HDC Surveys (now called Form Bs) for all contributing structures on island. This renovation will be annotated on the form when the time comes.

I'm sure my great grandfather would approve of your sensitive addition! Can't wait to see it.

Let me know if you have any questions.

Thanks!

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 7 Folger Ln

Tax Map Number: 42.4.4 Parcel Number: 33.3

Owner of Record: WOLFRAM FAMILY TRUST

Description of Proposal: Additions to Existing House, replacement of windows and doors in kind, new accessory dwelling in rear, new shed, landscaping and hardscaping.

Anticipated HDC Submission Date: 05/06/2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

> Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.
>
> For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:
>
> 1. Introduction of the application;
> 2. Response by applicant;
> 3. Public comment in favor of proposal;
> 4. Public comment in opposition of proposal;
> 5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
> 6. Commission comments and discussion with applicant;
> 7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 7 Folger Ln

Tax Map Number: 42.4.4 Parcel Number: 33.3

Owner of Record: WOLFRAM FAMILY TRUST

Description of Proposal: Additions to Existing House, replacement of windows and doors in kind, new accessory dwelling in rear, new shed, landscaping and hardscaping.

Anticipated HDC Submission Date: 05/06/2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

> Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.
>
> For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:
>
> 1. Introduction of the application;
> 2. Response by applicant;
> 3. Public comment in favor of proposal;
> 4. Public comment in opposition of proposal;
> 5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
> 6. Commission comments and discussion with applicant;
> 7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

> Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.
>
> For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:
>
> 1. Introduction of the application;
> 2. Response by applicant;
> 3. Public comment in favor of proposal;
> 4. Public comment in opposition of proposal;
> 5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
> 6. Commission comments and discussion with applicant;
> 7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

April 2, 2024 Minutes for 14 Almanack Pond Road HDC2024-03-10069
Commission Chair: Stephen Welch
Commission Members: Abby Camp, Diane Coombs, Vallorie Oliver, Joe Paul

Val's biggest concerns were that the size of the cupola was too large for the building and that the two dormer additions needed greater setbacks, and she also mentioned that the new colors (black trim on windows and grey house trim) will "make it more subdued".

Joe knows the house and has been inside, and said "it reads as more private than the site plan indicates", and had the same two concerns that Val had – saying that the dormer looks more like a monitor.

Diane also agreed with these two concerns mentioned above.

Abby agreed as well, and suggested that the cupola be reduced to 2 windows width instead of 4 on the west and east elevations, effectively making it square.

Stephen was concerned about the dormer "to the extent that it is was visible", mentioning that without side streets and based on the location, it never really would be. He also agreed that the cupola needed to be sized down.

- Consider rotating the ridge orientation of the main gable addition above proposed garage.
- Suggestion to more nearly replicate architectural features of the historic house such as roof pitches, exterior trim details, window styles and proportion.
- Change proposed family room porch roof from gable to a simple shed to reduce massing.

Staff Comments:	**Holly Backus, Preservation Planner** • Clarified that although the application labels it as a new dwelling, it's more accurately described as an "infill" project meant to blend with existing historic structures, specifically the Obit Joy House from circa 1846. • Appreciated the inclusion of a detailed streetscape in the proposal, which provides a clear view of how the new structure will integrate with the historic context. • Acknowledged the thorough research and presentation of dimensions and relationships between existing and proposed structures, finding it very useful for understanding the project's impact on the historic site. • Expressed curiosity about the architectural styles involved, specifically mentioning the Gothic Revival or Carpenter Gothic and the Greek Revival and asked for clarification on how these styles are being interpreted or integrated into the infill project. **MacEachern** • Acknowledged the complexity of classifying architectural styles, especially when elements from different periods blend together, such as Victorian touches within Greek Revival. • Shared insights from extensive research, including examinations of historic photos from the NHA archives, noting that certain architectural features do not strictly conform to a single historical category. • Expressed reluctance to definitively label the new structure as belonging to a specific architectural style, such as Greek Revival, due to the presence of diverse elements like ornate railing details and unconventional roof pitches. • Outlined the design approach for the new building, emphasizing a desire to create a structure that is unobtrusive and simple rather than competing with the more distinctly styled neighboring properties.

- Draft form b exists for this 1949 -1950 Cottage.
- Understands the reason for changing the size of the covered porch.
- Noted the odd positioning of the existing exterior chimney and its character-defining feature.
- Curious about the color of the brick (natural).
- Overall, no major concerns with the proposed changes.

HDC Board Sitting comments-
The HDC board comments on the proposed changes to the chimney are as follows:

- Approval for changing the size of the covered porch.
- Suggested painting the brick chimney white instead of leaving it natural.
- Noted that the existing chimney has an odd positioning and is a character-defining feature.
- Agreed on painting it white.
- Some discussion about the previous approval of steps and gutters.

Motion: **Motion to approve though staff to be painted white chimney. (Coombs)**

26. Carl Nielsen **8902**	2 Cabot Lane	Addition	30/254	EMDA

Voting: Pohl, Camp, Coombs, Oliver, Thornewill
Alternates: Patten, Paul

Documentation: Architectural elevation plans, site plan, photos, correspondence, advisory comments.
Representing: **Ethan McMorrow**
Public: HSAG- Mickey Rowland

- There is an awkward addition on the one-story structure.
- The addition will mostly be obscured by the house in front of it.
- The porch extends too far and should be reduced by a few feet to better match the building's scale.
- Suggestion to change the porch roof from a shed roof to a hip porch roof to create a lower eave line facing the street.
- The change would eliminate the awkward triangular addition to the main front wall.
- A preference for keeping the 6/6 windows to preserve the property's original charm.

Concerns
Holly Backus-

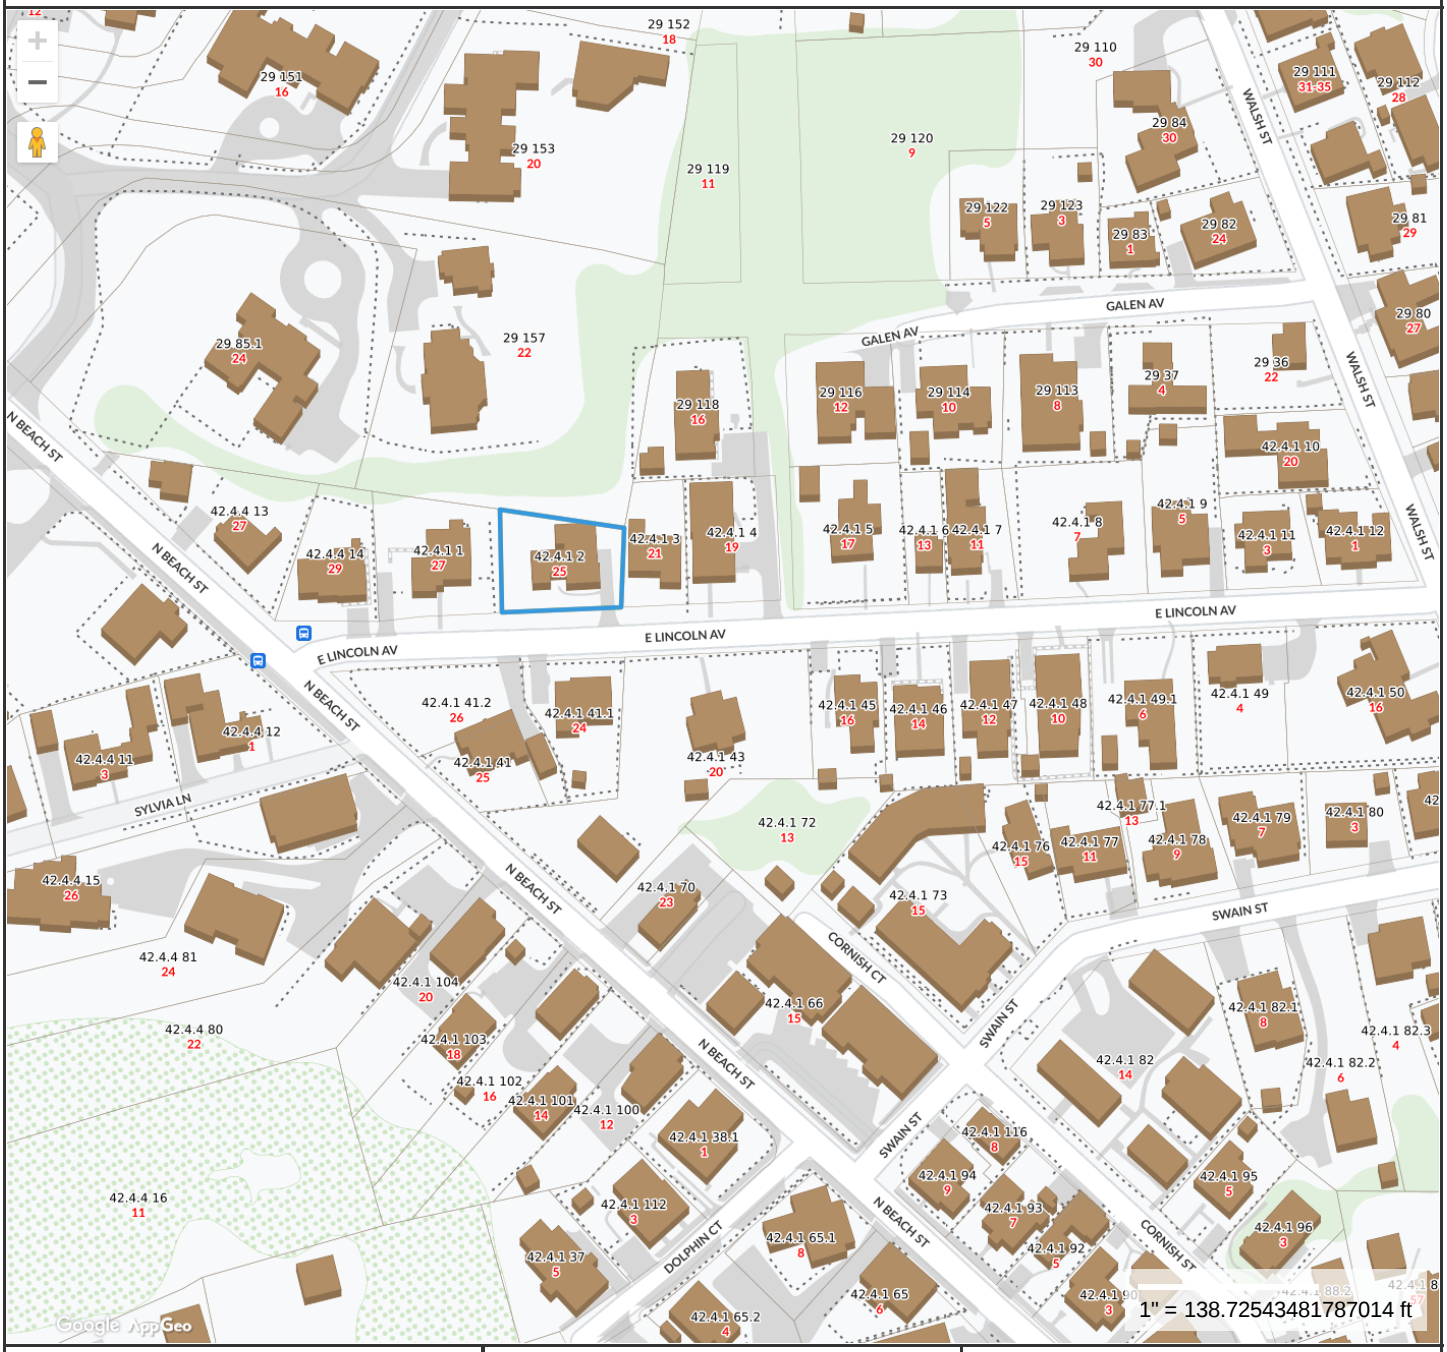

- 2 Cabot Lane was subdivided a couple of years ago, resulting in the creation of 4 Cabot Lane.
- The subdivision was approved for adding a basement under different ownership.
- The property includes the 1888 Victorian house known as the Harriet Swain house and a cottage at the back.
- The property was previously owned by Deacon Susan Phillips from St. Paul's Church.
- Both Four Cabot Lane and Two Cabot Lane were used as seasonal cottages for rent.
- The cottage structure was built around 1971 and was listed as the rear cottage for taxation in 1973.
- While adding a basement to the cottage makes sense, a two-story addition is not considered appropriate.
- Historically, the cottage had two over two windows, and changing it to six over six is not deemed suitable.
- The addition to the cottage is perceived as odd, with a second-story balcony and dormers.
- A streetscape view may be needed to assess how the two-story addition fits into the context of neighboring structures.
- The cottages should maintain their historical feel, even with separate ownership.

Camp-

- The design appears awkward and deviates from the original simple shed style.
- The transition from a shed to a two-story structure is too dramatic.
- The two-story portion on the far left with the jutting-out porch is particularly awkward.
- There is a lack of coherence and relationship between the two massings.
- Would like to see a design that aligns better with the architectural style of surrounding houses in the area.

Coombs-

- Believes that the buildings should not be converted into two-story or story-and-a-half structures.
- Suggests that the buildings should remain the same, with six over six windows.
- Emphasizes that the property at Two Cabot Lane should retain its current size and character.
- Considers Cabot Lane to be a unique and distinctive area, and she feels that smaller, one-story buildings are more in keeping with the neighborhood.
- Not in favor of any additions to the property exceeding one story, to maintain simplicity in the area.

HDC meeting minutes by applicant (there are no minutes available by town minutes person)

Sitting Board Members- Ray, Abby, Diane, Joe, and Connie

Val -present project- submitted for metal building given what is in the area but asking to change that shingles instead. 60x60 and 30' tall.

Garfield Bloise- Pastor- We are willing to adjust what needs to be adjusted, we just need a church space

Larry Bogan- Deacon- retired here in 2016. My wife's family- the DeBarros and Rose family have been here since 1940. I am now a deacon at Servants Heart Ministries. We have been in a tent for the past two years, even in the wintertime. I want to invite you guys to come and see-you would be very impressed by what we have done inside this tent, you wouldn't believe it. Invite you to come worship with us…it's the real deal, no foolishness. I think Nantucket is well deserving to have a building that represents the community and our God. You are just good people- thank you.

Ray- lets run this by the board members and see where it goes.

Holly- A few comments- church buildings on Nantucket have historically been built out of wood, brick, or stone. Thank you I am happy to hear it is going to be shingled and in keeping with its surrounding area. Thank you for the context of the airport structures. The scale size and material should be more relevant to its neighbors….the residential neighbors. Churches are part of residential neighborhoods. Pg 152 of Building with Nantucket In Mind-"new commercial structures and also religious structures are a form of that- should have traditional materials-glad to hear it that you are using the shingles. Unusual shape, not additive massing. Maybe there is some way to bring in something like batten boards instead of metal? This is a historical moment on Nantucket.

Abutter- Meri Lepore- direct abutter at 87 Skyline Drive. I am more concerned with noise. The building will probably make it better, but it is very loud until 10pm at night sometimes. Where this is located looks like a very large building and the homes in this area are not very large. Where it is located on the property is literally right on the property line. I have three little kids and they are finally all sleeping through the night. I can't open my windows in the summer because there is going to be a church literally next to our property line and its going to be loud until 10 pm- I might lose my mind! I didn't know if this could be moved to more centrally located on the property so its not so close to all the residential homes. It is very close to our home. Large building not like anything in the neighborhood.

Abby- Congrats you are getting a new home. A few architectural features that would be nice. The front of the building has that temple like thing with the columns. Maybe you could expand on that…all two pilasters across from it to accentuate the front of the building. I would put two windows on either side of the front door. Clear story windows should be evenly spaced and relate to the arched windows down below. Like congregational church has those big arched windows and there is a lot of repetition in windows and sizes. I am wondering on that top roof should be like a hip roof. Middle section is overwhelming with two windows and arch above door.

Joe Paul- Question for applicant- is there some importance like symbol or icons related to plan shape? Or the arches and the number of arches? What is the motivation to their employment?

Val-Agent for Church We wanted it to look more like a church and the shape evolved out of metal building start. We can certainly work on that.

Joe Paul- I think seeing it exactly the same rendered with shingles and corner boards, and some kind of flare or something on the base to ground it would be helpful. A Water table like the animal hospital is the one public building I can think of. It diminishes the verticality and grounds it a little bit. I think it would be nice if there was some kind of style that becomes generated. Like the columns which are round, more like the animal hospital are tapered and give more of a human scale to it and that is a large building, but it sits nicely the landscape there. There are elements that you probably would or will explore once you convert to shingles. I like arched windows, but they lose their specialness with the amount used. Maybe use sparingly and if you are going to have shutters, they should reflect the shape of the window. There should be a correlation there. Its interesting shape and it does mask the scale of it, especially from this front elevation. I am curious to see how aesthetically it would look with the wood details once they show up when making that change. Last comment is the scale of the Palladian window should be looked at and the shutters doesn't work. Is the glass clear or some of it stained or translucent- just curious?

Diane- I have know this area where the tent is for years and years and years. I think perhaps the two windows up on the little center second story there with shutters, maybe it would be good not to have the shutters? Have that window a stained-glass window there? That would be nice. I am thinking of St Paul's and the sided. How many windows they have there and they are stained glass and lovely. Maybe the upper window without the side windows could be like the door bellow? Shingles is good and some sort of foundation thing like Joe mentioned. I am interested to see how it goes with the shingles and its exciting to replace the tent. The tent has been there over 20 years and well populated on Sundays and stuff.

Connie- I don't have much to add. On the south elevation, I don't know about the spacing of the windows. I'm a very symmetric person so I would like to see them symmetric but that is just me. The shingles might be an issue with fire code, like we have had at the hospital. Maybe look into that.? Im glad it will be shingled and I think it will look great. Congratulations.

Ray- I find this project very interesting and it reminds me of a place in Paris called Cirque D'hiver which means winter circus. Its been in existence for over a 100 years and it started out as a tent and now the building looks like a tent. This looks a lot like this building and I think that the things that kind of trouble me about have already been mentioned but I will reiterate- we see a lot of arches, there is a Palladian window over the front, the arched entry doors and arched windows that run down wither side with shutters. I think that would be too much of a good thing. The arches will be more important if there are less of them. Tall quiet windows on the sides in the same way like the Unitarian church as these triple hung windows that are probably 25 feet tall? They are huge but really simple. Then all the emphasis is on the front of the building. Meredith has voiced her opinion and concern as a neighbor and even though it is not really up to us about the noise..if something could be done about the siting of the building to appease the neighbors that would be fabulous. And neighborly.

Thomas Barada-(member of public) 14 Tashama- This building- I think Val nailed it. Its great looking. A good comment about the shutters. I think she did a great job on it. As far as the size, it is smaller or about the same size as St Marys. The one on Fair Street is way bigger and the congregational church is 13,000 sf, This is small in size and I think its great. I think the board should be open for stain glass windows down the road because they may not be able to afford them now.

Meeting Minutes May 21, 2024

31 Squam Road – Squam Holdings LLC – Reno/additions/move – 21/3

HB: Was part of the Hutton Family Estate. Dates back to the 1930's, could be over 100 years old. Referenced Building with Nantucket in Mind pages 112-113 regarding glazing requirements. Should have a front door. French doors with windows not appropriate. Would like to see demo plan in red to show what is to remain.

AC: design dependent on lack of visibility. Fenestration is over the top, needs to be more appropriate to the area.

CT: lots of glass, has concerns with the amount of light at night as well as the visibility from the beach. Would like to see a section.

DC: too much fenestration.

VO: likes the scale, massing is great. Need to reduce the fenestration

SW: likes the scale and one story, would like to see some of the old picture windows remain. Need to reduce the fenestration.

SW: motion to hold for revisions. Fenestration revisions and section

MAY 14, 2024 HDC MEETING NOTES FOR **106 SQUAM RD**

EXISITNG HOUSE ADDITIONS

Board motioned and approved "Minor Revisions Needed"

"sensitive approach to the original house."

Fenestration was the most concerning to the board.
Recommendation of 2/2 or 2/1 - lites. Panes should be vertical in nature, not horizontal.

Porch and shed additon are fine as is. Wauwinet dormer could be not as wide since it's not functional.

Remove corner boards on dormer and replace with cottage corners.

Possibly remove dormer altogether.

SECONDARY DWELLING NEW CONSTRUCTION

Board motioned and approved "Some Revisions Needed"

Once again, fenestration was the most concerning to the board in creating a visual language for the property.

Val, Joe and Chair in favor of Secondary Dwelling being taller than Existing house. "A variety of height is helpful to the property."

Increase scale of windows in places, particularly first floor East Elevation and North Elevations.

Porch Columns are fine, but look a little peculiar in elevation due to sight lines blocking windows.

Alter window bay styling on 2nd story West Elevation. The lowered flanking windows are not customary to Nantucket design.

Roof pitch could be lowered, in effect the height of the structure would not be as tall because you don't need the space up there.

The cross gable dormer height being lower than the ridge was well received.

Finesse cross buck railing.

TERTIARY AND SHED TRACKED WITH SIMILAR ALTERATIONS

Once these revisions and approvals on Exisitng House Additions and Secondary Dwellings, these are the substance of design concerns, and once made these two tracking proposals will fall into place and are fine.

MAY 14, 2024 HDC MEETING NOTES FOR **106 SQUAM RD**

EXISITNG HOUSE ADDITIONS

Board motioned and approved "Minor Revisions Needed"

"sensitive approach to the original house."

Fenestration was the most concerning to the board.
Recommendation of 2/2 or 2/1 - lites. Panes should be vertical in nature, not horizontal.

Porch and shed additon are fine as is. Wauwinet dormer could be not as wide since it's not functional.

Remove corner boards on dormer and replace with cottage corners.

Possibly remove dormer altogether.

SECONDARY DWELLING NEW CONSTRUCTION

Board motioned and approved "Some Revisions Needed"

Once again, fenestration was the most concerning to the board in creating a visual language for the property.

Val, Joe and Chair in favor of Secondary Dwelling being taller than Existing house. "A variety of height is helpful to the property."

Increase scale of windows in places, particularly first floor East Elevation and North Elevations.

Porch Columns are fine, but look a little peculiar in elevation due to sight lines blocking windows.

Alter window bay styling on 2nd story West Elevation. The lowered flanking windows are not customary to Nantucket design.

Roof pitch could be lowered, in effect the height of the structure would not be as tall because you don't need the space up there.

The cross gable dormer height being lower than the ridge was well received.

Finesse cross buck railing.

TERTIARY AND SHED TRACKED WITH SIMILAR ALTERATIONS

Once these revisions and approvals on Exisitng House Additions and Secondary Dwellings, these are the substance of design concerns, and once made these two tracking proposals will fall into place and are fine.

HB: Would like to see existing photos to see how it relates to the main house

AC: if it relates to main house, thinks the design is lovely. Dormers set back not flush. If revisions move to a more barn like she would like the trim to stay natural to weather if the design becomes more cottage like she would like to see yellow trim to match the main house.

CT: main house has no dormers, would like to see the design read more barn like.

VO: How far from the main house? 100 feet according to client. Would like to see barn doors over the French doors on the north elevation.

SW: more images for the file. Low slung and very simply a tall, big barn would not be appropriate.

Old Business Submission

88 Pocomo Rd - Main House

May 30, 2024

Dear Holly,

We are submitting the proposed plans for the June 4th Old Business meeting deadline. We will be providing ariel renderings per the Board's request as well as some grade level renderings to provide more information regarding the existing design. In an effort to keep the process going, we prefer to resubmit for this deadline given there has been roughly 8-9 weeks between meetings. In the interim, we will be working on possible alternatives provided our client approves and based on the boards feedback.

Sincerely,

Matthew R. MacEachern

Revised Building Design

Sitting Board: Camp, Pohl, Paul, Oliver

Chair: Welch Alternate: None

Camp: Likes previous version – this one looks like too many styles packed into one.

Pohl: Appreciates the historical references and although he does not object to the house, feels this design is more suitable in town rather than Pocomo.

Paul: Likes the previous version as well. The vertical and formal elements in this design should be closer to town. There are a lot of elements that work well when looking at the local symmetries from the historic references. But it feels like a lot when it is all connected together. On the East elevation, the four pitched roof that comes out of the main entry gable feels incongruent.

Oliver: A rendering of the view of the house from the harbor with the other homes on the bluff would be helpful. Agrees it is very formal – town formal. Confused about the hierarchy of the building and the main mass vs additive massing. Would like some clarity on what are doors and what are large windows.

Welch: Agrees with Ray, it feel like this design belongs in town. The Gable forward architectural dealing is incongruent with the connectors which are more typical out of Town masses. The roof pitches are too shallow on the gable forwards.

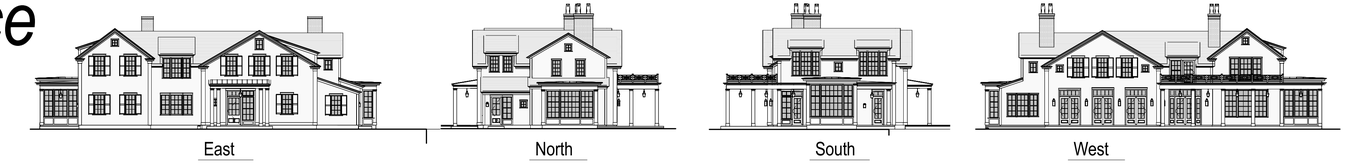

Motion to hold for revisions – requested a transcript of the minutes with primary points from each board member (Welch)

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 52 MIACOMET AVE

Tax Map Number: 67 Parcel Number: 83.9

Owner of Record: MIKE & DARYA GAULT

Description of Proposal: 815 ± SF G.C. Addition to existing dwelling @ Rear/SOUTH end.

Anticipated HDC Submission Date: May 22 2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-nó further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

- Presents a separate idea related to clarity and streamlining the review process. Paul suggests that applicants could use clouds tc indicate changes, a practice that some applicants already follow with helpful descriptions.
- However, Paul notes the potential confusion when reviewing old business applications, as not all changes are board-requested sometimes, designs evolve, or clients introduce changes independently.
- Paul proposes exploring a distinction between board-requested changes and other types of changes, possibly using a differen type of cloud or a distinct rendering method. The goal is to facilitate a clear comparison between the before-and-after states wher viewing applications.
- Paul emphasizes the importance of uniformity in presentations to enhance the efficiency of the review process, even whil allowing for individual expression in how architects present their designs. This approach, while not directly addressing the minutes issue, aims to make the review process smoother by improving the clarity of change documentation in submittec applications.

Pohl

- Expresses agreement, emphasizing that some applications provide a clear and straightforward progression with existing hous details through multiple submissions. In contrast, Pohl notes that other applicants may need to explain everything, and some changes may not even be adequately highlighted, which, according to Pohl, should warrant rejection but often doesn't.
- This observation underscores the need for more consistency in the presentation of changes and a potential refinement of standard for accepting or rejecting applications based on their clarity and completeness.

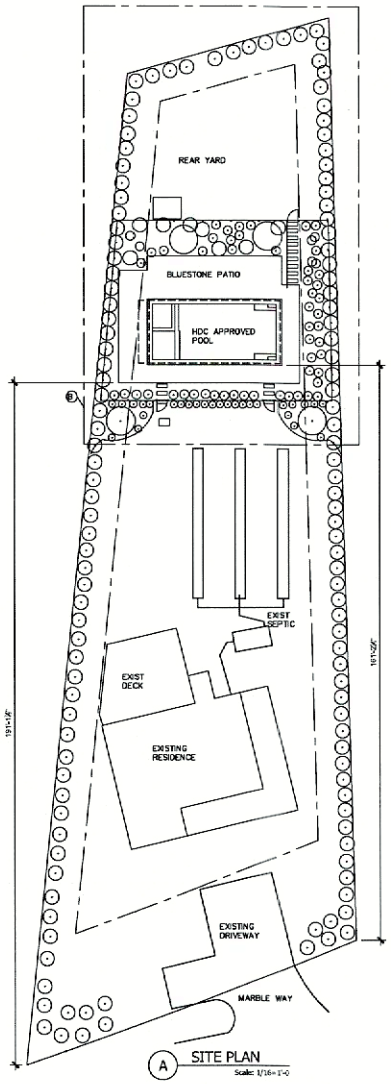

Welch

- Suggested, proposing that Joe sign up for the Organizational Focus Committee. This committee would review the schematic layout of projects, potentially presenting a couple of different options for consideration. The committee would then weigh in make a recommendation, and present it to the full commission for a vote.
- This process would be part of the checklist for a complete application, including diagrams A and B for two material options Welch emphasizes the potential efficiency gained by discussing complex projects at the Organizational Focus Committee acknowledging that while more straightforward projects may not require such detailed review, it could greatly benefit larger o more intricate submissions.
- The overarching goal is to facilitate the HDC's work, streamline staff processes, and provide clarity for applicants, even i architects desire a more stylized presentation.

Early Nantucket AND ITS Whale Houses MILL HILL PRESS

Henry Chandlee Forman

Early Nantucket AND ITS Whale Houses

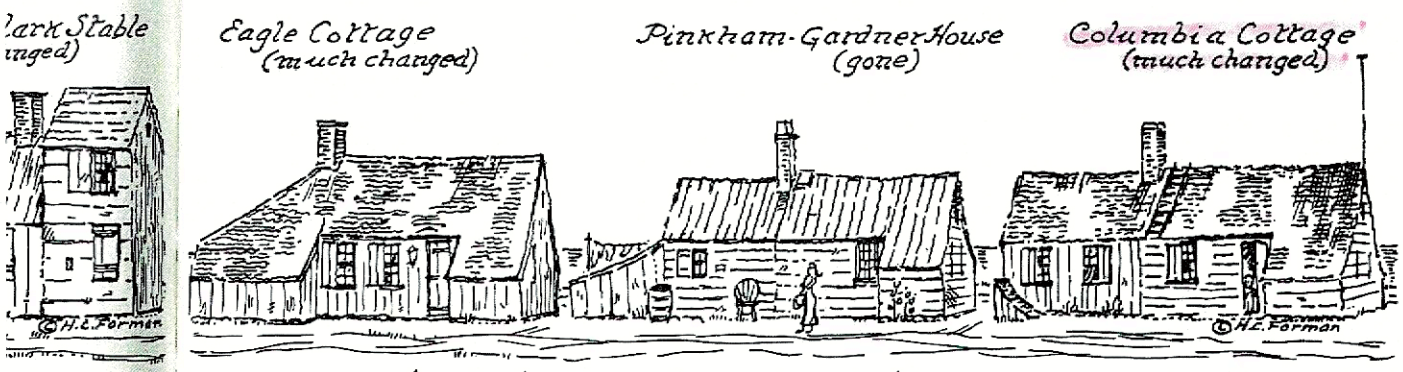

·Author's Reconstruction of AMERICA'S QUAINTEST STREET·

Which cottage did he visit? In those days the dwellings had no name signs, except perhaps those used as taverns, so that there was no occasion for him to identify the place. Next he brought out a fact of much interest and then lapsed into romanticism as follows:

"What rendered this house still more worthy of notice in my eyes, was, that it had been built on the ruins of one of the ancient huts, erected by the first settlers, for observing the appearance of the whales. Here lived a single family without a neighbor; I had never before seen a spot better calculated to cherish contemplative ideas; perfectly unconnected with the great world, and far removed from its perturbations. The ever raging ocean was all that presented itself to the view of this family; it irresistibly attracted my whole attention: my eyes were involuntarily

·Author's Reconstruction of America's Quaintest Street·

This poem then goes on to relate that three maidens clad in spotless white did "reel it strong" with three nice young men. Finally everybody went home, the harper himself going to "coofdom." In the last sentence the word "tew" or "tu" is Scotch and dialectical for work hard or fuss. The word "can" should perhaps be "ken," to understand.

3 – Handling the Sheep Business

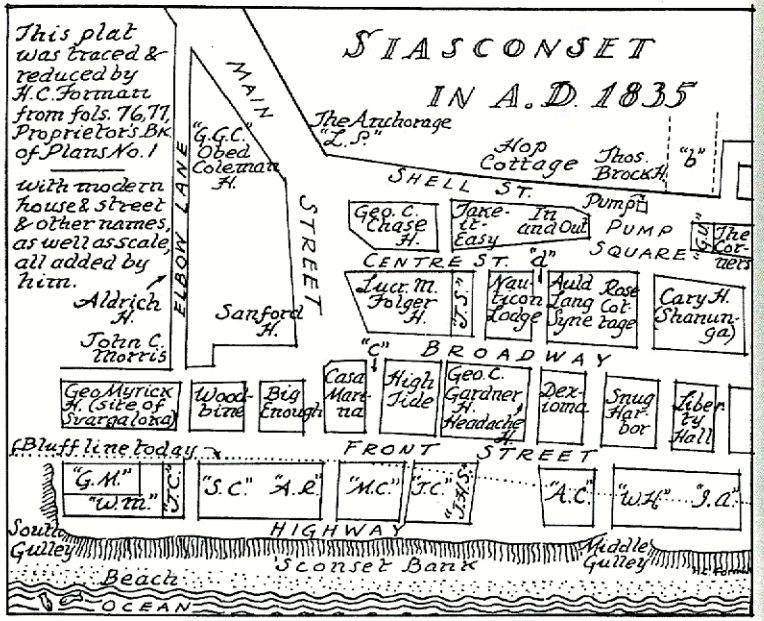

The Island records are full of items about sheep. In 1696, for example, a tax of 140 pounds of sheep's wool was levied upon the estate of Stephen Hussey. At another time it was voted at a Town Meeting that a committee be formed to keep the sheep out of the Town, and to demand that the "Lamb Marker," as he went about dutifully marking lambs, should turn the animals from the Middle Pasture into the Southeast Pasture, to abide there until time to wash them. On still another occasion the sheep were to be kept in the Winter pasture, where they were to be guarded against killing.

Among the archives of Nantucket is a book, written by hand and entitled "Earmarks of the Inhabitants of Sherborn on Nantucket." The marks were made on sheep. The first entry reads thus: "The earmark for John Swain ['s sheep] a half penny under the right ear."

One time twenty-six men were individually asked to stand at the gates of a stair at shearing time in order to take account of all the sheep which had been put in small pens, and to place the animals among the rightful owners. Upon finishing that job, the men were then to turn over the sheep to the clerks of the yard, who perforce had to enter the beasts in the sheeping record books. Another year it was forbidden to set up any tents or booths at shearing time inside the Middle Pasture fence.

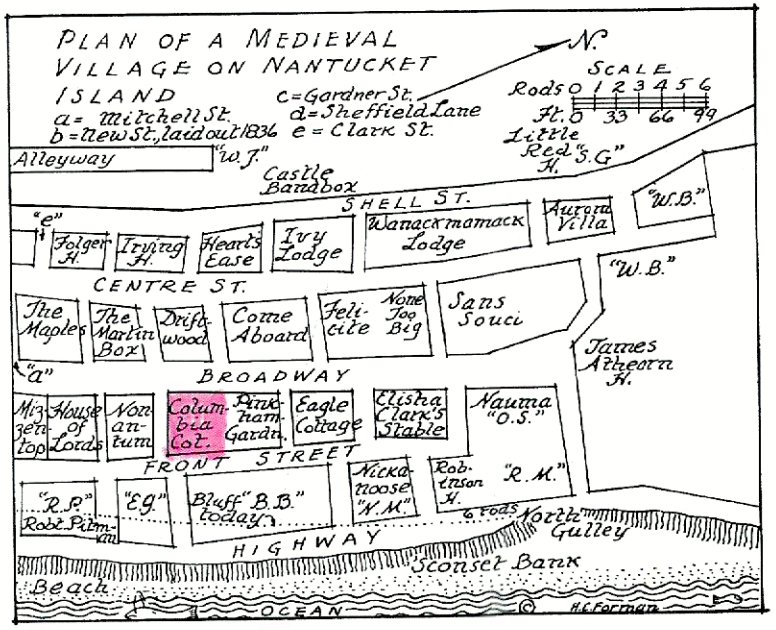

directed to the horizontal line of that watery surface, which is ever in motion, and ever threatening destruction to these shores. My ears were stunned with the roar of its waves rolling one over the other, as if impelled by a superior force to overwhelm the spot on which I stood."

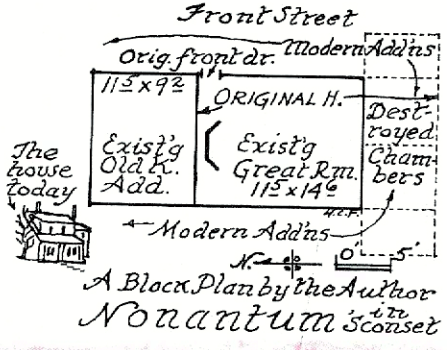

Crèvecoeur was probably wrong when he declared that the house he visited had been constructed on the ruins of one of the ancient huts. Because they had no foundation other than stone boulders, 'Sconset buildings were not erected on the ruins of others. What he meant perhaps was that the abode had been *extended* from the original fisherman's whale house.

6 – Eighteenth-Century 'Sconset

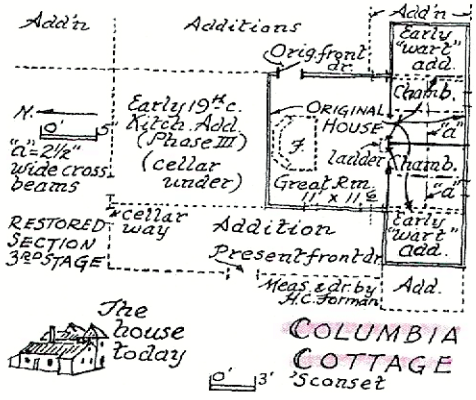

In 1758, some eighty-two years after the establishment of 'Sconset, the Town of Sherburne voted an impossible gridiron type of plan for the village. It ordered that "Siasconset Bank" be laid out into twenty-seven shares, beginning at the South Gulsh, or Gulley, to the southward of the "South Well" and extending northward along the bluff. Each lot was to be three rods, or forty-nine and a half feet, by

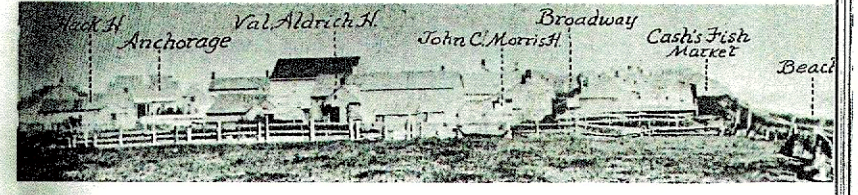

2 – A Doll Tea House

At *Columbia Cottage* (pp. 69, 174, 176), the next domicile to the north, the hanging loft or baulk was found to be boarded up at the same time that staterooms were built — the paneling at the end of the Great Room appearing to be one piece, as has been discussed in an earlier chapter. Now known as the *Willow Harp, Columbia* was built in the early eighteenth century, according to an old letter belonging to a recent owner of the property. Among the early possessors of the cottage was Benjamin Bunker, whose mother when a widow kept a "Tea-house" there, in spite of the diminutive size of the premises for such a purpose. Bunker's son, George, when a small boy, ran errands and did chores at *Columbia*.[2]

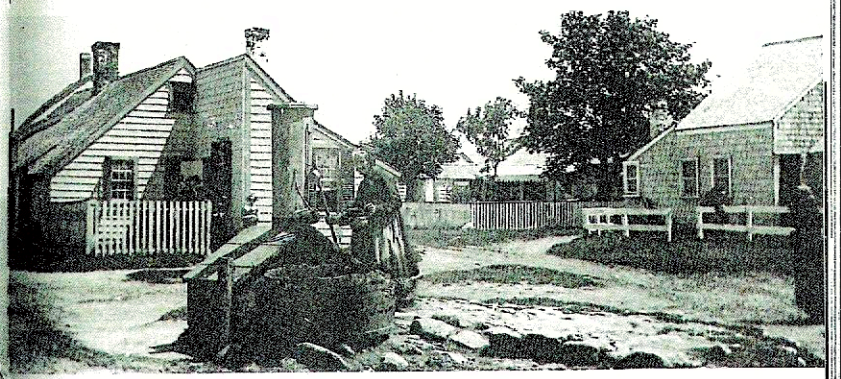

ABOVE: Looking south on Broadway, 'Sconset, in the 1860s, showing cottages as identified by author. Note type of medieval vertical-board palisaded fence commonly used. BELOW: 'Sconset from the south — oldest known photograph of the village (1860s).

This home developed normally through rectangle to "T"-house, then in the early nineteenth century the Great Room roof, open to smoke and soot, had special treatment. It was plastered, it seems, all the way up the chimney gable to the ridge, as shown in the detail on page 87. The up-and-down roof sheathing or clinkers were also probably whitewashed, as they were at *Nauticon Lodge* — illustrated by "w" on page 86 — so that they would match the plaster gable and the plaster walls of the Great Room. Then later a plaster ceiling was built halfway up the roof rafters, thereby cutting the baulk door way down to half size. It all sounds very complicated, but the drawings should explain everything about this unusual house.

Old photographs (p. 175) show an outside entranceway to the cellar under the kitchen which had a low door and pent roof. Since the early nineteenth century this abode has suffered tremendous changes, including two square towers on the Ocean side.[3]

A little known view of Pump Square, 'Sconset, as it appeared about 1884. At left is *The Corners*, with its "flounder" wing.

Columbia Cottage has a new stepladder to the hanging-loft. *Photo, author.*

A WALK DOWN BROADWAY

A Self-Guided Walking Tour through 'Sconset's Historic Core

As you follow Broadway, you will note that many cottages have changed appearance with the addition of second floors, including Liberty Hall, House of Lords, and Mizzentop. All, however, began as simple cottages with a T-plan.

One of the best preserved cottages is Shanunga, or the Betsey Cary cottage, 10 Broadway. It is believed to date from the 1680s. The tall wing toward the north was added about 1780, adjacent to the oldest core and its early warts.

By 1835, Shanunga was held by Betsey Cary, who ran a tavern there. By 1873, the cottage was an early post office operated by Captain Baxter, Cary's son-in-law. Local histories suggest that the name Shanunga comes from a quarterboard that once hung here, taken from a shipwreck in 1852.

Across Mitchell's Lane is another fine early cottage known as The Maples. It was built by the early eighteenth century and occupied by Eliza Mitchell, for whom the small lane separating the houses may have been named. The south end is the oldest section. Later wings are evident to the north. The house's small scale and its crooked windows and wings are an essential part of its character and authenticity.

Farther along on the right is Willow Harp. It, too, was built in the late eighteenth century and was later owned by Benjamin Bunker, whose mother kept a teahouse. It has been added to in an unusual fashion, but the early structure is easily discernible.

Elisha Clark's Stable, a gray-trimmed building with a storefront-like window, found on the right near the shell path to Front Street, was later converted into Crosby's store at the turn of the nineteenth century, and a second floor was added.

The three cottages at the head of Broadway are believed to have been built elsewhere and moved to 'Sconset in the early nineteenth century. San Souci (meaning "without a care"), which fronts on Centre Street, may have been erected on Traders Lane in town and used as part of a twine factory. Local histories suggest it was moved to 'Sconset in 1814 and was the first cottage in the village to be raised to two stories. The kitchen to the north was a boathouse, and bricks for its chimney are said to be from the British ship *Queen* when she wrecked.

To: Nantucket HDC

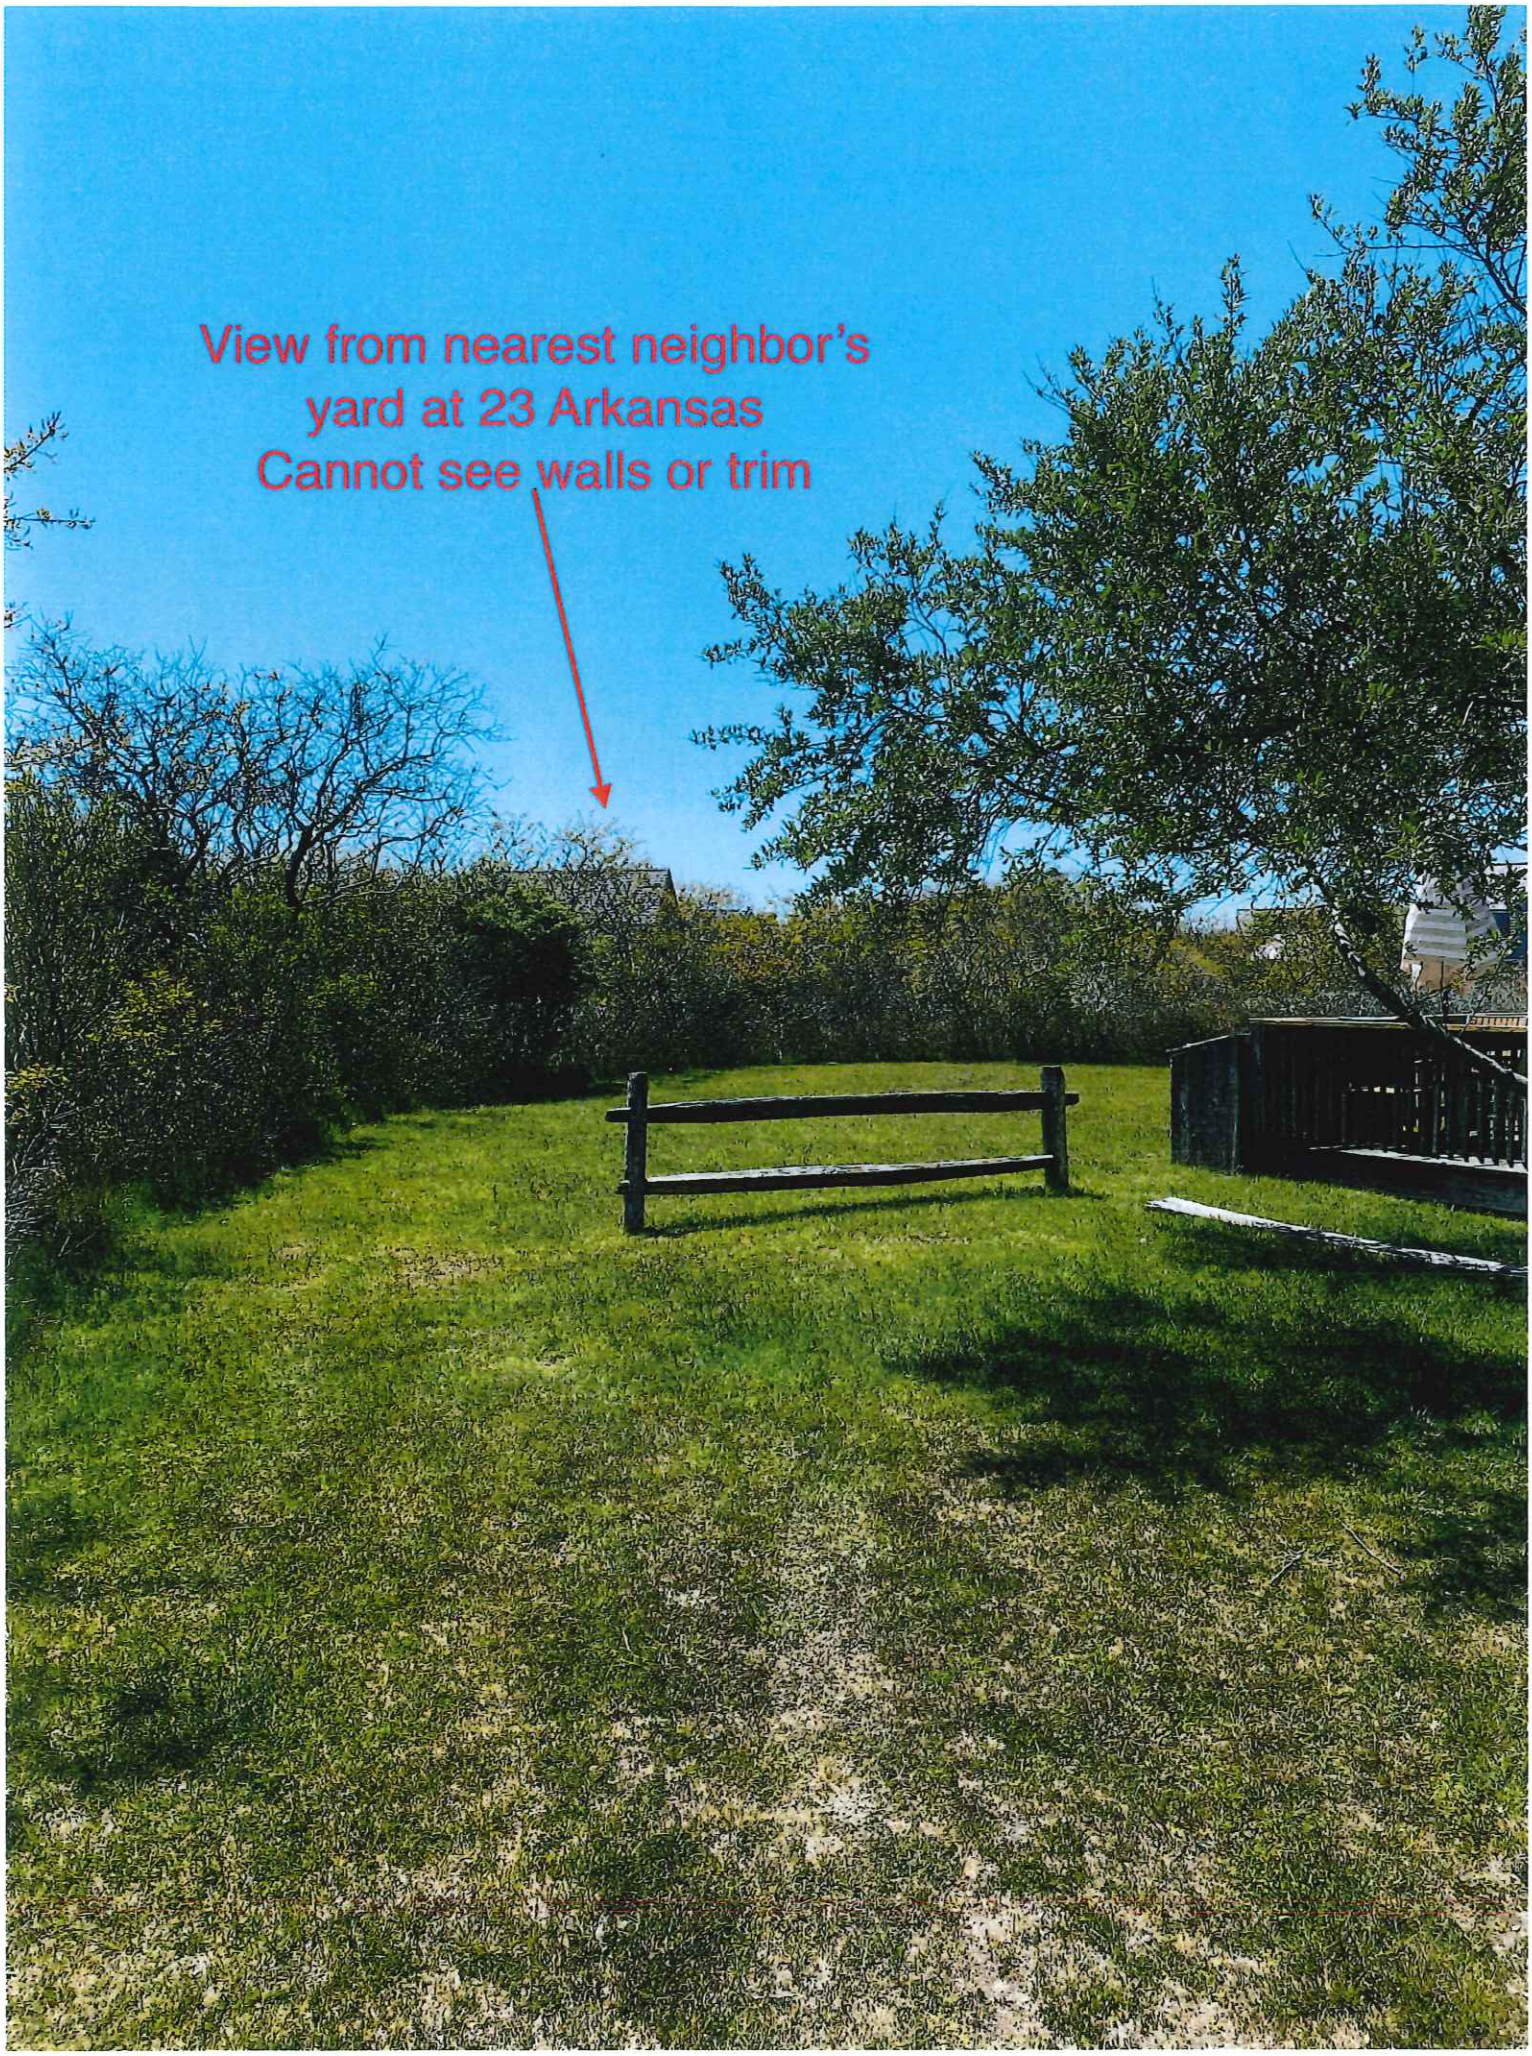

The owners request the boards consideration to allow the north, east and west elevations to remain board/batten with natural trim.

These three sides of the structure are unable to be seen from any street and one almost completely obscured from any neighbor's view by surrounding landscape.

The owners have been unable to procure shingles for a reasonable price. Further, the addition of shingles and painted trim will add an estimated $7000.00 to this shed project.

Sincerely,
Devon Murphy

Staff

	- Expressed concern about the front door being a nine-light, suggesting a switch to a six-panel or four-panel door for a more formal appearance. - Noted that other elements like the balcony, French doors, etc., are not a concern due to the dense vegetation behind the house as seen in the aerial photo.	
Motion:	**Motion to approve through staff with Exhibit A to correct the roof walk and change the front door. (Oliver) (1:42:24)**	
Roll-Call Vote:	Carried – 5:0 // Pohl, Camp, Coombs, Oliver, Patten (Aye)	Certificate #HDC2023 – **11-9546**

Voting:	Pohl, Camp, Coombs, Oliver, Paul
Alternates:	Patten, Thornewill, Welch
Recused:	None
Representative:	Devon Murphy
Documentation:	Architectural elevation plans, site plan, photos, correspondence, advisory comments.
Staff Comments:	**Holly Backus** - Noted that the provided site plan does not match the indicated survey plan. - Highlighted that the architectural plans match the existing shed, expressing hope that the shed will remain. - Pointed out the potential incongruence in trim color if the new structure's trim is natural to weather while the existing house and shed have white trim. - Mentioned the presence of old roads, Mississippi Avenue and Utah Avenue, flanking the property.
Public Comments:	-
Concerns:	**Oliver** - Noted that the lack of information, including trim color, roof color, and site plan details, contributed to the application not being considered for consent, and expressed that there doesn't appear to be anything inappropriate about the project. **Camp** - Expressed a preference not to have baton board and recommended regular shingling for uniformity, including white trim and the same roof shingle as the main house. **Coombs** - Agreed with Abby, expressing approval for the shed but preferring not to have barn boards and recommending white trim to match the main house. **Paul** - Concurred with Diane and Abby. **Pohl** - Suggested that the barn board elevation may not be visible and proposed approval with the condition of using white cedar shingle siding on all four sides and white trim to match the house and the existing barn.
Motion:	**Motion to approve through staff with Exhibit A with the siding being white cedar shingles and the trim painted white to match the main house. (Oliver) (1:55:19)**
Roll-Call Vote:	Carried – 5:0 // Pohl, Camp, Coombs, Oliver, Paul (Aye) — Certificate #HDC2023 – **11-9484**

Voting:	Pohl, Camp, Coombs, Patten, Thornewill
Alternates:	Welch, Paul
Recused:	Oliver
Representative:	Val Oliver
Documentation:	Architectural elevation plans, site plan, photos, correspondence, advisory comments.
Staff Comments: **Holly Backus**	- Noted the main house as a non-contributor from 1986 and acknowledged the barn as an appropriate feature for the area. - Suggested that the design of the barn needs some tweaking, specifically mentioning the steep roof pitch and the atypical doors with transoms above. - Pointed out that the fenestration in the dormers seems to be floating and recommended aligning them with the soffit. - Appreciated the dormers' compliance with "Building with Nantucket in Mind" and not being on the ridge and that the trim is to match the main dwelling.
Public Comments:	-
Concerns:	**Camp** - Suggested having the dormers set back from the eaves rather than flush, especially after noting the drawings. - Mentioned that the transoms on the east elevation seem excessive, and recommended adjusting the proportion of the garage doors, especially their distance from the corner. **Thornewill**

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 39 Cliff Road

Tax Map Number: 42.4.4 Parcel Number: 3

Owner of Record: Cheese & Crackers LLC

Description of Proposal: Demolish existing dwelling. New dwelling

Anticipated HDC Submission Date: 28 May 2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 39 Cliff Road

Tax Map Number: 42.4.4 Parcel Number: 3

Owner of Record: Cheese & Crackers LLC

Description of Proposal: Demolish existing dwelling. New dwelling

Anticipated HDC Submission Date: 28 May 2024

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 13 Maxey Pond Rd

Tax Map Number: 40 Parcel Number: 101

Owner of Record: Maxey Pond Nominee Trust

Description of Proposal: revision of pool and landscape addition of pool cabana & gym

Anticipated HDC Submission Date: 5/9/24

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 13 Maxey Pond Rd

Tax Map Number: 40 Parcel Number: 101

Owner of Record: Maxey Pond Nominee Trust

Description of Proposal: revision of pool and landscape addition of pool cabana & gym

Anticipated HDC Submission Date: 5/9/24

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

NOTICE OF HDC APPLICATION

ABUTTERS AND INTERESTED PARTIES

Please be informed that the Nantucket Historic District Commission will be considering the following proposal:

Address of Proposed Work: 13 Mayflower Pond Rd

Tax Map Number: 40 Parcel Number: 101

Owner of Record: Maxey Pond Nominee Trust

Description of Proposal: revision of pool and landscape addition of pool cabana & gym

Anticipated HDC Submission Date: 5/9/24

You have been identified either as an abutter or interested party to the above property and are being notified in accordance with the Town Bylaw. Please note that the above submission date is an estimate only; the actual meeting date will be determined once the HDC staff has established that a complete application has been submitted. Please contact the HDC office to verify the date. Please note that notification is only required at the time of initial submission of an application, not for each time an application goes before the Commission. Abutters are responsible for monitoring the status of applications.

If you wish to comment on the above proposal, you are encouraged to submit your comments in writing to the HDC office. If you wish to testify at a Commission meeting please be aware that your testimony may be limited by the Commission in accordance with Commission policies, which are included on the back of this form. Due to the large sizes of most applications, the HDC office may not be able to send faxed copies of the plans. Off-island abutters wishing more detailed information may enlist an on-island representative to view the plans in the HDC office.

If you have any questions, please contact the HDC office at 508.325.7587.

HDC POLICIES FOR AN ABUTTER AND/OR INTERESTED PARTY TESTIMONY

Abutters are encouraged to limit their responses to issues that fall within the statutory mandate of the HDC – mainly the appearance of a proposal from the publicly traveled way and its impact on the existing historic environmental context. Issues such as land uses, noise, and impacts on private property are outside of the HDC's purview and cannot be addressed by the Commission.

In order to maintain a balance between the wishes of abutters and interested parties to express their concerns and the need of the HDC to conduct its business in a timely fashion, the following policies have been established:

Abutters and interested parties wishing to testify before the Commission shall be limited to three minutes of testimony. Only one representative from each abutting property or interested party shall be permitted to testify.

For those cases in which a substantial number of abutters and/or interested parties wish to testify (as determined by the Chair), the Chair shall structure the review of an application as follows:

1. Introduction of the application;
2. Response by applicant;
3. Public comment in favor of proposal;
4. Public comment in opposition of proposal;
5. Closing of public comment-no further comment unless requested by Commission members through the Chair;
6. Commission comments and discussion with applicant;
7. Commission action.

The above meeting policies may be waived at the discretion of the Chair.

Dear Nantucket Building Commissioner,

At its June 6, 2023, meeting, the Nantucket Historic District Commission (HDC) approved a request for historic determination for the building (c.1881/1882 Matilda Van Zandt Cobb & Henry N. Cobb House aka "Salt Air" – built by James. H Gibbs and moved to this location c.1938 from 45 Hulbert Ave) located at 25 Willard Street, Nantucket, Massachusetts.

The HDC considered the following relevant evidence and information:

- October 1923 & 1949 Sanborn Insurance Maps;
- Deed Book 101, Page 140 Arthur Lee to William Pepper Constable, November 19, 1923;
- Deed Book 94, Page 324 Heirs of Matilda Van Zandt Cobb to Arthur Lee, September 22, 1910;
- Inquirer & Mirror Newspaper dated November 5, 1881; June 18, 1938, June 25, 1938, Obituary of William Pepper Constable January 6, 1977;
- Photographs of existing conditions;
- As-built conditions vs. proposed;
- Draft FORM B – Building Survey; PAL, June 2023;
- The building is identified as a contributing historic resource within the National Historic Landmark designation for the Nantucket Historic District, which is listed in the National Register of Historic Places;
- The building is identified as a contributing historic resource within the Nantucket Historic District, which is listed in the Massachusetts State Register of Historic Places; and,
- The building is identified as a contributing historic resource in the Nantucket Island Architectural and Cultural Resources Survey (March 1989 Inventory #NAN.43.)

Based on this evidence, the HDC finds that 25 Willard Street (c.1881/1882 Matilda Van Zandt Cobb & Henry N. Cobb House aka "Salt Air" – built by James. H Gibbs and moved to this location c.1938 from 45 Hulbert Ave) is a historic building under R105.3.1.1 of Massachusetts Building Code, as it has been designated as historic under national, state, and local historic preservation programs that are approved by the U.S. Department of the Interior. Furthermore, this building will continue to be a historic building after the proposed work is completed.

Please let me know if you have any questions.
Sincerely,

Holly E. Backus,
Preservation Planner
Local CLG Coordinator

Massachusetts State Building Code – Section R105.3.1.1

For the purpose of this determination, a **substantial improvement** shall mean any repair, reconstruction, rehabilitation, addition or improvement of a building or structure, the cost of which equals or exceeds 50% of the market value of the building or structure before the improvement or repair is started. Where the building or structure has sustained substantial damage, repairs necessary to restore the building or structure to its pre-damaged condition shall be considered substantial improvements regardless of the actual repair work performed.

The term shall not include either of the following:

1. Improvements to a building or structure that are required to correct existing health, sanitary or safety code violations identified by the building official and that are the minimum necessary to ensure safe living conditions.
2. **Any alteration of a historic building or structure, provided that the alteration will not preclude the continued designation as a historic building or structure.**

Historic buildings:

Any building or structure that is one or more of the following:

2.1. Listed or preliminarily determined to be eligible for listing in the National Register of Historic Places.

(This includes historic structures that are determined to be eligible for listing by the Secretary of the Interior. A "Determination of Eligibility" (DOE) is a decision by the Department of the Interior that a district, site, building, structure, or object meets the National Register criteria for evaluation, although the property is not formally listed in the National Register.)

2.2. Determined by the Secretary of the U.S. Department of the Interior as contributing to the historical significance of a registered historic district, or a district preliminarily determined to qualify as an historic district.

(If a structure is certified or preliminary determined as contributing to a National Register Historic District by the National Park Service, it meets this definition (and the district is included on the State Register of Historic Places. Contributing structures can be found on the District Data Sheet within a National Register Historic District Nomination Form. The District Data Sheet lists every property within the boundaries of the National Register District and notes whether they are a "contributing" resource ("c") or a "non-contributing" resource ("nc.") Nantucket's Data Sheet and Updated Nomination Form can be found on the Town's website.)

2.3. Designated as historic under a state or local historic preservation program that is approved by the U.S. Department of the Interior.

(By an approved state program as determined by the Secretary of the Interior or directly by the Secretary of the Interior in states without approved programs. Nantucket's Special Act of 1955 created the Nantucket Historic District. Any structure requesting this exemption should submit a "Historic Determination" COA to the Nantucket HDC for determination. The Town of Nantucket was accepted and certified into the National Park Service's "Certified Local Government" (CLG) Program on March 19, 2021.)

ARCHITECTURAL DESCRIPTION

The Spotswood Page and Julie Murray Forrest Nelson House, 25 Willard Street (ca. 1930, NAN.43) is a northwest-facing, asymmetrical, 2-story, 3-bay-by3-bay, Colonial Revival-style, wood-frame dwelling with Craftsman-style influences. It has an asphalt-shingle, side-gable roof with deeply overhanging eaves with exposed rafter tails and is clad with wood shingles with plain corner boards. The dwelling rests on piers which are obscured by vertical wood planks. An exterior brick chimney is located on the rear (south) elevation. The main entrance is off-center on the facade (northwest) elevation. It contains a 2-light paneled wood door with a simple wood plank surround and is accessed by a wood staircase with wood picket railings. A single window flanks the entrance to the east and west, and three window are arranged across the second floor above the first-floor openings. A 2-story, 3-bay-by-1-bay, front-gable, wood-shingled rear ell extends from the southwest corner of the main block. A shed dormer pierces the west roof slope of the rear ell. A 1-story, shed-roof porch with square wood posts and wood picket railings spans the side (east) elevation of and partially wraps around the rear (south) elevation of the main block. A narrow 1-story, 5-bay-by-1-bay, hip-roof, wood-shingled addition extends from the rear (south) elevation of the rear ell, and a 1-story, shed-roof, porch addition extends from the southeast corner of the main block and rear ell. Fenestration consists predominantly of double-hung, 6/6 wood sash enclosed by simple wood plank surrounds with narrow rectangular wood sills.

A southwest-facing, 1-story, 1-bay-by-1-bay, astylistic, wood-frame Garage (ca. 1930. NAN.44) sits northwest of the dwelling. It has a front-gable roof covered with wood shingles and is clad with wood shingles with plain corner boards. Interior access is via double-leaf, side-hung, vertical wood plank doors set within a wood plank surround centered on the facade (southwest) elevation.

The Spotswood P. and Julie M. Nelson House is a good example of an early 20th century, Colonial Revival-style dwelling with Craftsman-style influences on Nantucket. It retains its original form, orientation, massing, fenestration pattern, and exposed rafter tails and has experienced minimal alterations, most notably the construction of a 1-story addition to the rear ell sometime between 1949 and 1971 (NETR 1971; Sanborn Map Company 1949). A second 1-story addition was built at the southeast corner of the main block and rear ell between 1985 and 2003 (NETR 1985, 2003). The asphalt-shingle roof, wood-shingle cladding, and double-hung, wood sash windows are historically appropriate replacements and likely date from the late 20th or early 21st century.

HISTORICAL NARRATIVE

Hulbert Avenue is six blocks from Nantucket Harbor and runs northwest-southeast from Easton Street, terminating at Bathing Beach Road and continues northwest as a dirt road The street sits within the Brant Point neighborhood of the Nantucket Historic District (NAN.D, LHD 6/4/1970, NRDIS NHL 11/13/1966), which remained undeveloped, apart from the Brant Point Light Station (NAN.A, NRDIS 9/28/2987), into the late 19th century. The neighborhood is north of Nantucket town center and developed as a haven for summer residents beginning in the late 19th and early 20th centuries when Nantucket's economy shifted from whaling to tourism and was originally known as "Beachside." Construction reached its peak in the mid-20th century as new dwellings were constructed on vacant lots, larger properties were subdivided for new development, and earlier houses were replaced with new ones. The neighborhood contains some fine examples of late 19th and early 20th century summer cottages and larger houses, but it is characterized by a mix of building forms and styles, reflecting its long period of development. Most of the dwellings continue to serve as summer residences (A.G. Souza Associates 1989; Lancaster 1993; NPT n.d.).

→ MOVED FROM HULBERT AVE

According to preexisting secondary sources, the Spotswood Page and Julie Murray Forrest Nelson House, 25 Willard Street (ca. 1930, NAN.43) was ~~constructed~~ on the east side of Willard Street around 1930 (NHDC 1989). The dwelling's form, massing, and style are consistent with this date of construction. It does not appear on a 1923 map of Nantucket but is present on a 1938 aerial photograph, which depicts the dwelling with a roughly L-shaped layout resembling its current configuration (NETR 1938; Sanborn Map Company 1923). The ownership history remains unclear from readily available sources. A complete chain of title is necessary to determine this information and to pinpoint a more precise date of construction.

Continuation sheet 1

The first known owner of the property is William Pepper Constable, who sold it to Spotswood Page (1896–1980) and Julie Murray Forrest Nelson (1894–1990) in 1944 (NCRD 1946:111/20). Spotswood Page Nelson was born in Patton, Alabama, to Robert (1852–1905) and Elvera A. Nelson (1859–1916) and was one of six children (U.S. Census 1900). He grew up in Virginia and later attended Johns Hopkins University and the University of Maryland Law School. During World War I (1914–1918), he served as a first lieutenant in the Army. Spotswood Page Nelson spent most of his career at the Savings Bank of Baltimore, where he started out as the vice-president and worked his way to president and board chairman (*The Baltimore Sun* 1980:10). In 1917, Spotswood Page Nelson and Julie Murray Forest married in Illinois. Together they had two children and lived in Baltimore, Maryland, using the Nantucket house as a summer residence (*The Baltimore Sun* 1917:4; U.S. Census 1930, 1940). Julie Murray Forest was born in La Grange, Illinois, to George (1857–1936) and Mary L. Forrest (1858–1937) (U.S. Census 1900). In her later years, Julie Murray Forrest Nelson volunteered for the American Red Cross and translated books into braille (*The Baltimore Sun* 1990:24).

The Nelson family retained ownership of the property until 1959, when Julie M. Nelson Williams and S. Page Nelson Jr. sold it to George B. and Carolyn duP Gibbons (NCRD 1946:111/20, 1949:112/252, 1959:118/574). The couple placed the property in trust, The Gibbons Company, in 1979, and it transferred the property to the Hellzapoppin Trust, the current owner, in 1993 (NCRD 1979:171/217; 1993:416/208). The property has served as a summer residence for most of its history.

Concerns	**Backus** – Really hard to discern what is existing to what is being proposed. **Rowland** – Brick pattern should be much simpler to remain in keeping with current patterns. **Welch** – Seems too formal. Concerned about the monotone grey. The pattering seems problematic. **Coombs** – Entrance is too wide. Parking lot inside is almost as wide as the house. Prefers a regular fence not a sliding fence. **Camp** – Not into the mechanical sliding gate. Would prefer a Belgian block and more greenery around driveway. **Thornewill** – Brick work is complicated looking and seems like a lot of brick. If there was less brick and more formal this might read as more residential. Get rid of the returns. Hoping for more photos of the material that is being used.

Representing	James Krapp

Concerns	**Backus** – The proposed is very large and vertical. The exterior chimney is inappropriate. Any French doors A simple gable garage and reduce the height. Maybe add a bump out on the rear. **Rowland** – Coordinates are mixed up on the elevations. Garages in the OHD should relate to simple traditional carriage houses. This building is much too large and complicated and tall. Having an extra set of garage doors is confusing. The exterior chimney should be moved inside or eliminated as exterior fireplaces are not appropriate near the OHD. The large hip porch roof is an awkward attachment. The flush cross gable above the main mass is totally inappropriate. **Oliver** – The massing is very confusing. Would like to see it pushed back further. Would like to see it next to the house. **Thornewill** – Too tall where it is. Agrees with everything that Mickey said. Would like to see it pushed back. **Coombs** – Chimney on the north elevation does not fit in with the simplicity of the house. Agrees with all that Mickey said. **Camp** – Agrees with all that's been said.

Concerns (1:44)	**Williams** – Presented project. South elevation, the 6-light transom is being deleted. **Pohl** – The north and south elevations are long but not that visible. **Welch** – He's not a fan of the long, broken-back roof but it won't be visible; he'd prefer it be a normal saltbox. **Oliver** – Agrees about with Mr. Welch. **Thornewill** – Agrees also about the broke-back roof on the north and south. West elevation, the ridge shouldn't drop. It could be much simpler and typical and get the same program.

Concerns (1:55)	**Williams** – Presented project. Rationalized why the dormer windows can't be raised. **Thornewill** – West elevation porch should be widened 1' each side. South elevation, the dormer windows are too low. **Welch** – Same concern with the front door head casing. There's room to lift the dormer windows some without hitting the ceiling. **Pohl** – Those dormer windows can be raised.
