V. Presentation of Nantucket Human Services Needs Assessment by Kulik Strategic Advisors

Marcos Presented the final draft of the needs assessment and confirmed there were 621 resident surveys, and this surpassed the response goal of 382.

Of the survey responses 42.3% of respondents reported a household income below \$150,000.

The Needs Assessment found that the top 5 health concerns from residents were access to healthcare, health insurance, substance misuse and child immunization.

Committee members voiced concerns surrounding the readiness of the report to be shared with the public. The committee suggested connecting the report to CRC/CHS's funding history with action-oriented bullet points before going to the Select Board and the public.

There will be an email sent out to request volunteers for a CRC/CHS workgroup. This workgroup will provide feedback and recommendations to Marcos on how the report can be reworked to fit the goals and work the CHS and CRC have been focusing on.
